PROJECT

Having been in the playground industry for more than ten years, Nets Tribe has accumulated a wealth of spatial creativity, resource integration and on-the-ground construction capabilities.

At Nets Tribe, we encourage all children to go through that door and enjoy the physical, social-emotional and learning benefits of playgrounds. Inclusive play is at the very core of everything we aim for. The result is universal designs that embrace the needs of all. In universal playground, all children can play together – with peers, with parents or individually.

PRODUCT

Crocheting nets with centuries heritage is the representing feature of product craftsmanship. Most beautiful and timeless play designs, tailor-made solutions, highest quality material, green and safe to make sure the new site is a lovely and safe place to spend hours and hours. Rope creates everything. Net Tribe crochets small rope with big surprise.

Tower Traversing

Tower Traversing is the outdoor sports playground project, consisting of multiple towers and passages. Rope nets are used among the tower to build different levels, styles, excitement and challenge. It can be used as a base for children's physical fitness training base. Under the protection of nets, children do not need to wear other protective equipment when playing.

Crystal Tower

Crystal Tower is the outdoor challenge playground project, combining crystal structures with 2 or 4 expansion layers, building 500m to 1000m space route, integrating climbing, jumping, traversing, low bungee jumping on each layer. When children play, they should be trained by professionals, wear fall protection equipment and complete the project accompanied by adults.

JUNGLE SERIES

Tree Trampoline

Tree Trampoline is the outdoor sports playground project, which is amuse park in the forest, integrating the ground and above space. Adopting an eco-friendly way, installing guard boards around the trunk, hanging the high-strength nylon bottom net on the trunk and applying the steel wire rope to fix the protective net all around nylon net ensures safety.

Under the protection of nets, children do not need to wear other protective equipment when playing.

JUNGLE SERIES

Jungle Walking

Jungle Walking is the outdoor sport playground project, adopting the eco-friendly way, integrating the original natural environment, using the jungle middle air space, building on the top of terrain, creating different routes. Children could enjoy the beauty and freedom of nature while relax together with family and friends. Under the protection of net, children do not need to wear other protective equipment when playing.

JUNGLE SERIES

STEEL COMPOSITE ROPE SERIES

Jungle Adventure – Roperoller

Jungle Adventure is the outdoor challenge playground project, involving adventure, sports and entertainment, including obstacles such as nets, trails and rope ways. With the international design concepts, European product standards, equipment imported from Germany Roperoller completely guarantee the safety of children when playing. While children explore in the jungle, they can exercise their physical strength and inner courage, facing the challenge without hesitation. When children play, they should be trained by professionals, wear fall protection equipment, and complete the project accompanied by adults.

Steel Wire Rope Net

Steel Wire Rope Net is the outdoor climbing playground equipment, with climbing, rotating, swing and other challenging play elements perfectly combine with fitness, exploration, entertainment and education, allowing children to exercise balance and coordination in the game.

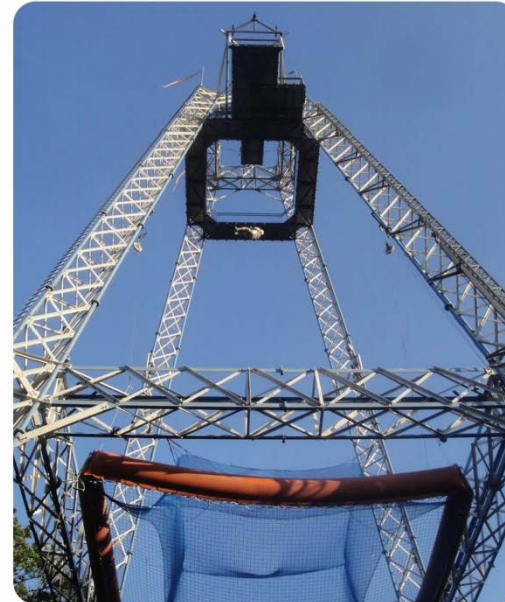

EXTREME SERIES

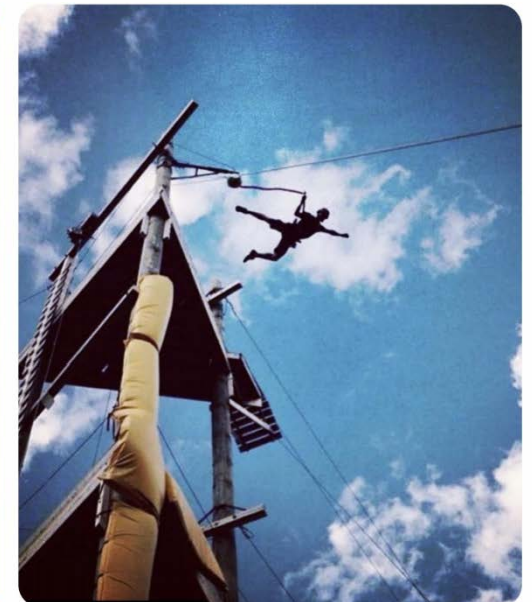

Human Slingshot

Slingshot Flying Man is a playground equipment with novel.

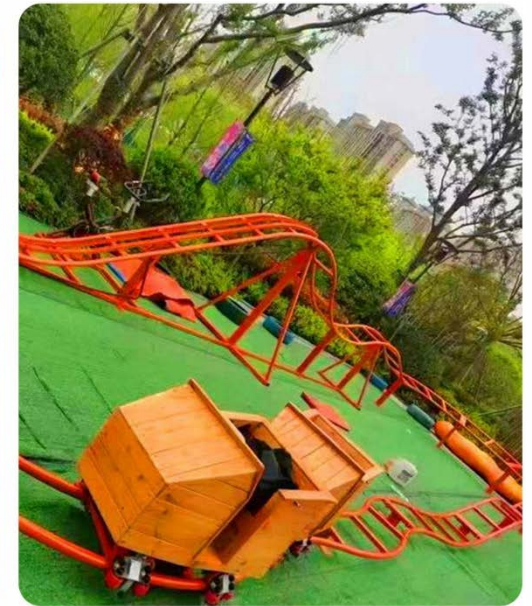

Slingshot Flying Man is combined the elements of bungee jumping and trapeze, which can increase the interest and attraction of the park. It is suitable for promotion and advertising.

EXTREME SERIES

NETFLIX SERIES

Ins Playground Product

Rainbow sliding, Ins train, Ins sand pool, bungee jumping cloud, Ins roller coaster and many other popular Ins items, which make the playground much more attractive.

LABYRINTH SERIES

Bending Blocks

Bending blocks is the playground equipment with beautiful appearance and function of landscape. Children can enter the rope net bending and choose the different paths to explore. The rope net bending components can be reconfigured like flexible blocks and switched on the project site.

LABYRINTH SERIES

Pearl Tower

Pearl Tower is the indoor and outdoor art installation and playground equipment composed of steel wire climbing nets and stairs. The shape of Pearl Tower is like beautiful pearls falling from the sky. The steel wire lines support the whole structure, and the rope nets connect the stairs. Unlike ordinary outdoor art landscapes, the Pearl Tower has climbing and playing function.

RAINBOW NET SERIES

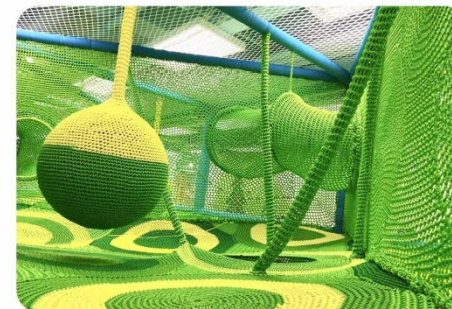

Honeycomb Net

Honeycomb is the indoor and outdoor crochet climbing playground equipment. The product idea is inspired from the shape of honeycomb structure, which is formed by splicing multiple "small honeycombs". The colorful products present the scene of natural vitality, which is attractive to children and adults.

RAINBOW NET SERIES

Rainbow Maze

Rainbow Maze is the indoor and outdoor crochet exploratory playground equipment. The inside of maze is made up of intricate rope net structure. Children have to overcome the internal obstacles to get through. Children are energetic and curious, this maze game is suitable for children's energetic and curious characteristics.

RAINBOW NET SERIES

Rainbow Tree

Rainbow Tree is the indoor and outdoor crocheted colorful tree-shaped playground equipment. It consists of two parts with crown and trunk. Children can play and jump in the canopy, and they could also play on the swings, swing balls and swing tier which are hanging on the crown.

RAINBOW STATION

Rainbow Station

Rainbow Station is the indoor and outdoor art installation of the seat woven with rope net, evolved from traditional round chair. Rainbow station provides a comfortable resting place for tourist in the playgrounds and squares. At the same time, the rotating device at the bottom of product provide children and adults with fun.

LANDSCAPE SERIES

Air Jellyfish

Air Jellyfish is the outdoor art installation product suspended in the air by fishing nets, swaying in the wind is like a jellyfish swimming in the water. The colorful lighting at night reflects the dazzling brilliance of the works and evokes imagination.

LANDSCAPE SERIES

Ant Nest

Ant Nest is the indoor art installation product composing with intertwined rope net channels. The mesh channel of the ant colony is fixed to indoor floor and ceiling by steel cables, ensuring that the whole installation is firm and stable. Walking inside the intertwined trails, you could feel the inner peace and provoking thought in the hustle and bustle.

THEME SERIES

Dino Park Adventure

In this project, we have designed three thematic areas based on three periods related to the survival of dinosaurs, the Cretaceous period as the centrepiece, the Jurassic period to explore the heyday of dinosaurs, and the Paleocene period to explore the unsolved mystery of the extinction of dinosaurs in the Cretaceous and Paleocene periods.

THEME SERIES

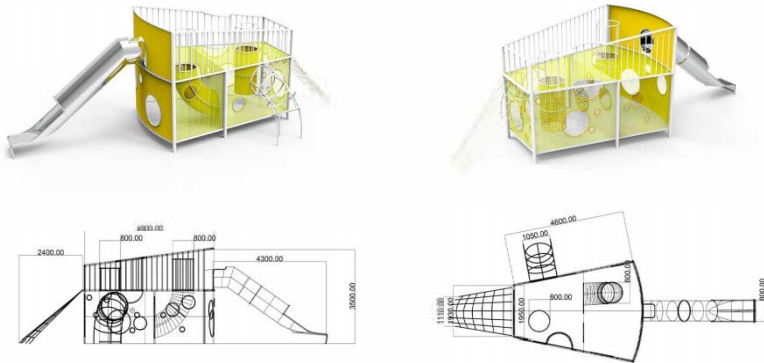

Ocean Encounters

The design is based on the children's perspective and divides the entire play space into three main areas, the honeycomb net, the sand pit and the science ball puzzle. It combines various items such as climbing and traversing. It is aesthetically pleasing, soft and fun, and becomes an interactive space that meets the needs of different age levels of children.

Area: 10sqm

Size: L6.56ft*W16.4ft*H14.76ft

Material: galvanized steel pipe + polyester/nylon net

STANDARD PRODUCT

70sqm

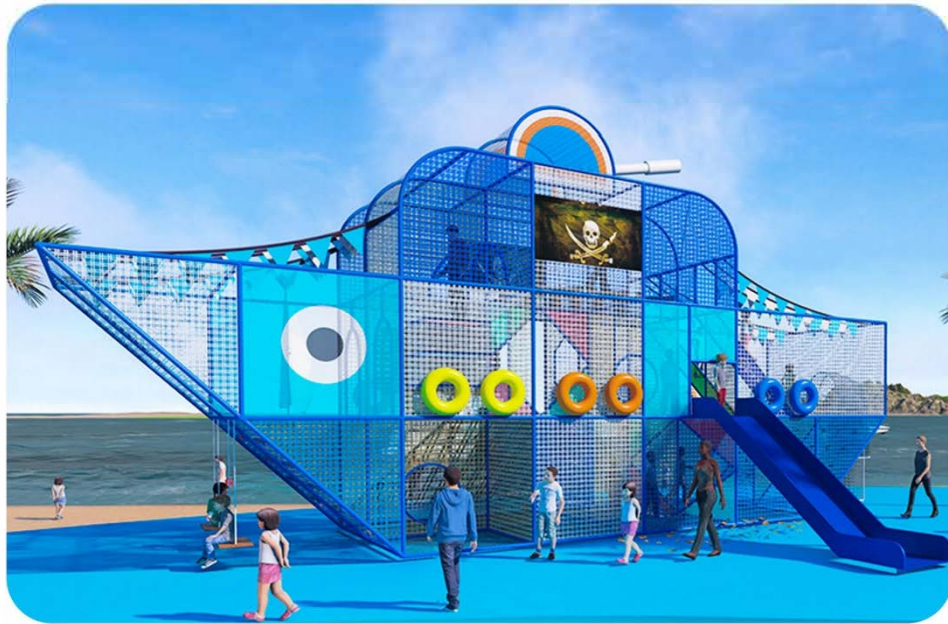

Product: Cactus Trampoline

Area: 70sqm

Size: L38.39ft*W20.01ft*H19.69ft

Material: galvanized steel pipe + polyester/nylon net

STANDARD PRODUCT

Product:	Sailing ship Trampoline
Structure:	31boxes (L6.56ft*W6.56ft*H6.56ft)
Size:	L39.37ft*W46.26ft*H24.28ft
Material:	galvanized steel pipe + polyester/nylon net

STANDARD PRODUCT

Product:	Spaceship Trampoline
Structure:	19boxes (L6.56ft*W6.56ft*H6.56ft)
Size:	L63.65ft*W36.42ft*H14.76ft
Material:	galvanized steel pipe + polyester/nylon net

STANDARD PRODUCT

Dislocated space station

Product: Dislocated space station

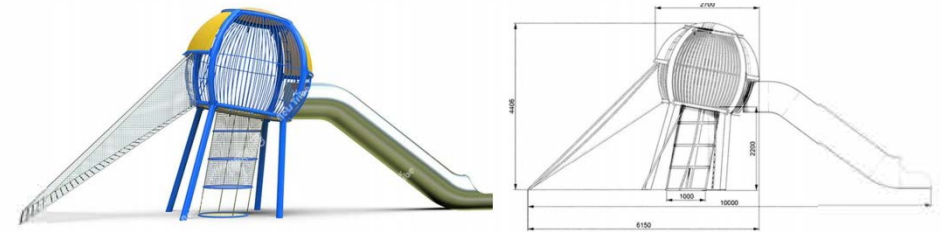

Weight: 1000KG

Size: L35.43ft*H13.12ft

Material: Nylon rope + bottom net + galvanized pipe

STANDARD PRODUCT

Happy Planet

Project: Happy Planet

Size: L32.8ft*H14.44ft

color: Blue

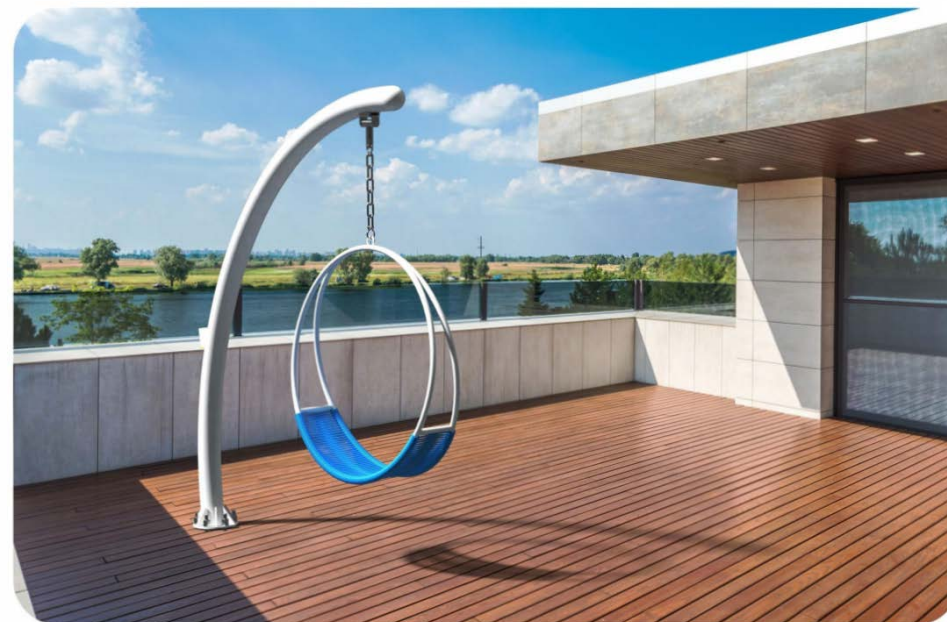

Material: Galvanized pipe+steel wire composite rope+nylon rope

STANDARD PRODUCT

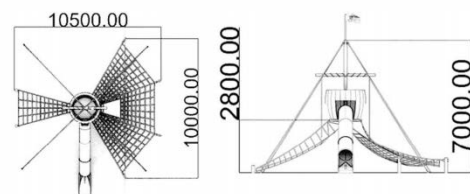

Product:	Ring Swing
Area:	8sqm
Size:	L7.55ft*H6.56ft Round tube
Material:	114 tube

STANDARD PRODUCT

Project:	Hanging ring swing
Area:	5sqm
Size:	L12.3ft*H5.41ft
color	Red, Blue

STANDARD PRODUCT

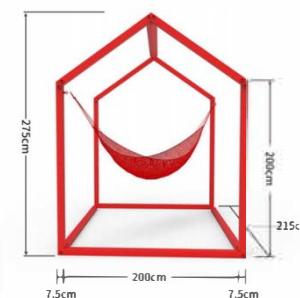

Product: irate rock climbing

Weight: 200KG

Size: L34.45ft*H22.97ft

Material: Steel wire composite rope + wooden board

STANDARD PRODUCT

Project: Red House Swing

Size: L12.3ft*H5.41ft

color: Red

STANDARD PRODUCT

Product: Spiral Swing

Area: 10m²

Size: L11.48ft*H6.56ft Round tube

Material: 114 tube

STANDARD PRODUCT

Project: Animal Swings

Area: 6m²

Size: L9.84ft*H6.89ft

color: Green, brown, white

OVERALL PLANNING

As a one-stop service provider, Nets Tribe offers a full range of services including the whole park proposal, general layout, landscape artwork and playground equipment.

Nets Tribe has a unique feature of protecting the natural environment, analyzing the market and society, considering the position and target, making full use of the space of site, providing the park operation manual and procedure, bringing visitors an immersive experience ultimately.
